

Project Profiles

Waste to Energy

Project Name: **Lampung Bekri**
 Client: EcoSecurities Indonesia
 Location: Java, Indonesia
 Project Type: Cigar[®] MANURE (Beef Feedlot)
 Size: 800m³ wastewater per day
 Date: 2008
 Value: USD 1 Million
 Services Provided: Design, Commission & Operations support

Treating waste from 22,000 head of cattle. Initially the project will generate revenue from CDM's only but there will likely be an investment into a Genset in the future. Biogas production is expected to be around 8,000m³ per day.
